Injections Skill Exam (ISE®)

SITE INFORMATION & EQUIPMENT LIST

EXAM DATES:
August 2020 – July 2021
The information listed in this Site Information and Equipment List is for informational purposes only. There may be additional equipment or supplies on-site during the exam that may not be reflected in this manual. Additionally, equipment and supplies may change without warning.

This information is not intended to prepare candidates for the exam, but to provide a general overview of equipment and supplies used during the exam. Candidates are reminded to thoroughly review the Evaluation Forms and Candidate Guide to adequately prepare for the Injections Skill Examination.
STATION INFORMATION - ROOM OVERVIEW

MAIN OVERHEAD LIGHT SWITCH, DIMMER SLIDER

Lighting will already be set at full illumination
The light controls are located next to the door
A countdown clock will be available on the exam room computer monitor for candidates to use. Use of the countdown clock is optional.

Countdown clocks on the computers do NOT officially determine a candidate’s time.

Testing officially begins when you hear the announcement “The exam cycle has begun.” Testing ends when you hear “The exam cycle has ended.” Candidates wishing to use the countdown clock in the rooms must press the arrow button indicating START to begin the countdown clock. There may be a delay between when the announcement plays and when a candidate presses START, thus the time remaining may be less than what is displayed on the computer. Using the countdown clock in the room is optional and only to provide candidates assistance in determining the amount of time remaining in the station. Again, these clocks are not the official time keepers of the exam.
**STATION INFORMATION**

**Computer Workstations**
Displays Station Instructions
Not an item-by-item list, but a brief overview of skills expected to be performed.

Turn the monitor off/on by pressing button underneath the bottom right corner

---

**Repeat Policies**
Posted on the back of the exam-room doors, next to the computer workstation

---

**Pens & Pencils**
Provided in each station for candidate use

**Band-Aids®**
Available in all rooms in the event an injury occurs
STATION EQUIPMENT & SUPPLIES

Table Area

Injections Supplies Overview

Injections supplies are organized in compartments on the table with plenty of needles, syringes, drape kits, etc.

Gloves/Tissues are found on the wall, to the right of the table.

Sharps containers are mounted directly above the injections table.

There will be 2 vials of each simulated medication available.
The drape kit will provide everything necessary to **simulate** an aseptic field for the Injections exam.
